Cozy Cabin

Cozy Cabin

Orchestrating Human Connection through Pure AI & Onchain Intelligence

Encode London Hackathon 2025 · Stephen Canning

😩

Relationships Are Hard Work

Couples juggle chores, forget to communicate, and let the "logistics" of daily life crowd out real connection. Existing apps are **to-do lists with a heart icon** — there's nothing that makes the mundane feel *meaningful*.

Enter Cozy Cabin

A **real-time cooperative multiplayer sanctuary** for couples. Complete Love Tasks, earn Cozy Coins (£) and EDS, and build your shared virtual home — preserving relationship milestones in a persistent digital world.

Love Tasks

HOW IT WORKS

The Core Game Loop

👫 FOR COUPLES

- Receive personalised **Love Tasks** (chores, affirmations, surprises)
- Complete tasks together to earn Cozy Coins
- Spend coins to **build & decorate** your cabin
- Explore your shared space in real-time multiplayer

🤖 THE AI BEAR

- An **autonomous NPC** that lives in your cabin
- Senses game state & relationship signals
- Proactively walks over to offer coaching & nudges
- Pushes insights into your Luffa chat thread

TRACK: VIBE CODING

Zero Manual Code. 100% AI.

Every single line of this project was generated by AI. The human role was **Product Architect**, steering the **Google AI Studio Antigravity** agent through high-level prompts.

⚡

48-Hour Ship

Full-stack multiplayer game from zero to deployed in a single weekend

🎮

Custom Engine

60FPS delta-time independent engine on React 19 + HTML5 Canvas

🔥

Complex Systems

Collision physics, depth sorting, Firebase security rules — all AI-generated

TRACK: AI AGENTS

The Cozy Bear 🐻

An **autonomous, proactive NPC** powered by Gemini 1.5 Flash — not a chatbot.

👀

Sense

Reads game state: resources, time since last heart, task completion

→

🧠

Think

LLM reasoning via Gemini to decide the best coaching action

→

🚶

Act

Walks to player, delivers context-aware advice & Luffa notifications

LuffaNator: The Bear pushes insights from the game directly into the couple's Luffa chat thread.

TRACK: CREATIVE AI

Magic Easel & Projector

🎨

MAGIC EASEL

Turn text-based memories into **persistent pixel-art paintings** for your cabin walls using **Gemini 3 Flash Image** (Nano Banana 2).

"Our first holiday in Cornwall" → a framed painting on the wall.

📽️

MAGIC PROJECTOR

Generate 5-second lo-fi video loops from shared dreams using **Veo**, projected inside the virtual cabin space.

"A sunset beach with our dog" → plays on the cabin projector.

TRACK: ONCHAIN AI

The Vault ⛓️

A real-time bridge to the Endless Testnet. In-game effort becomes verifiable on-chain assets.

🪙 **Cozy Coins**
Earned in-game

→

🔐 **The Vault**
Bridge UI

→

⛓️ **EDS Tokens**
Minted on Endless

→

💕 **Proof of Connection**
Persistent & trustless

Relationship milestones as **soul-bound achievements** — your "Proof of Connection" lives forever on-chain.

LUFFA ECOSYSTEM

The Third Space for Couples

🤝

Superbox Handshake

Zero-friction identity via Luffa SDK. Auto-sync based on chat room ID.

🤖

LuffaNator Bot

Cozy Bear pushes real-time insights & nudges into the couple's Luffa chat.

💬

Always One Click Away

Lives inside the chat as a mini-app — the cabin is always next to your conversation.

Cozy Cabin is a native **Luffa Superbox (H5 Mini-App)** — deployed on Google Cloud Run.

ARCHITECTURE

Tech Stack

Luffa Superbox (H5 Mini-App)

React 19 | HTML5 Canvas | Custom 60FPS Engine

Gemini 1.5 Flash | Gemini 3 Flash Image | Veo

Firebase Firestore | Google Cloud Run | Endless Testnet

WHY IT WINS

Four Pillars

🏗️ Complexity

It's not a chatbot — it's a **high-performance multiplayer engine** with collision physics, depth sorting, and real-time sync.

🧠 Proactivity

The AI Bear **takes the initiative**. It doesn't wait for prompts — it senses, reasons, and acts autonomously.

🔗 Cross-Platform

Connects the **Game World**, the **Luffa Chat**, and the **Endless Blockchain** into one seamless loop.

⚡ Process

The ultimate **vibe coding** proof — a single architect shipped a multi-model, multi-track platform in a weekend.

🏠❤️

Thank You

Come visit the cabin.
